Continuation of Substance of Interview including description of the general nature of what was discussed: It was agreed to amend line 8 of claim 5532 to read "less than about 10C/day", in order to be consistent with parent claim 5529. It was further noted that claim 531 directly conflicts with 185 of applicant's copending application 09/841,491. Accordingly, applicant may cancel claims 531-566 or further amend claim 531. It was also noted that claim 5549 conflicts with claim 54 of applicant's copending application 09/841,432, with an overlapping pressure range. Accordingly, applicant indicated intention to file a terminal disclaimer against 09/841,432. Applicant will submit such amendments and/or terminal disclaimer(s) via a supplemental amendment. Such supplemental amendment should put application in condition for allowance, but no commitment made pending consideration of the amendment/response. .
